The **SECRET** to making a million dollars in network marketing lies in the word: **SECRET**.

Seek – seek and you shall find, ask top network marketers who have made millions of dollars in network marketing and they will share their “secrets” and some have even written books on how they achieved their success. The secret is there are no secrets!

Ethical – you must choose the right company and do the right things. Most people fail because they chose the wrong company and did the wrong things.

Commitment – you must commit time, money, effort and be willing to do whatever it takes ethically to achieve your million dollars.

Responsibility – you must take responsibility for your results.
“Mirror, mirror on the wall, who is the cause of it all?”
“If it is to be, it is up to me!”

Educate – you must educate people on what is network marketing and why network marketing?

Teamwork – you must build a team, build the people and the people will build the business.

A man who doesn't think is like a ship without a captain.
The great Dr Albert Schweitzer and nobel prize winner was interviewed by a reporter when he was in London and the reporter asked, “Doctor, what is wrong with men today?” Dr Schweitzer paused for a moment and answered, “Men simply don't think.”

Why network marketing is the most misunderstood business in the world? Dr Schweitzer had the answer: “Men simply don't think.”
If you ask me why there are so much fighting, suffering and poverty in the world? I have the same answer: “Men simply don't think.”
If you want to get ahead in life and business, one of the critical skills is to learn how to think objectively and intelligently.
Network marketing is a wonderful business and Mark Victor Hansen believes it will unite people and help bring about world peace!

THINK

Every dollar you spend, someone makes money, why not you?

Why not be part of the wealth creation process and partner with a manufacturer who is willing to share his profits with you when you help him to market his products through word-of-mouth advertising which has been proven to be the most effective form of advertising.

Why pay retail when you can pay wholesale? Why pay more when you can pay less? Why not turn your daily expenses into an ongoing income? Why not save time and money by ordering direct from a manufacturer? Millions of people are doing that now when they are ordering computers direct from Dell.

Why not receive a recommendation check every month for doing something which you have been doing over and over again for many years? You have been recommending good products or services for years without being paid for it!

Why depend on yourself and 24 hours in a day when you can leverage your time and effort on an organization of thousands of people?

Why work hard when you can work smart?

Why not work hard for 4 years on a proven and tested system and earn \$40,000 or more a month and enjoy a great lifestyle instead of working hard for 40 years in a job?

If thousands of people can be very successful in this business, why not you?

“The definition of insanity is doing the same things over and over again and expecting a different result.” – Albert Einstein

To go where you have never been before you must do what you have never done before. For things to change, first you must change!

Think Again.

If you continue to do what you are doing you will get what you are getting now. What options do you have to create wealth? I highly recommend you to read the book: **Think And Grow Rich.**

If there is someone who has been there and done that and he is willing to teach you, why not learn from him?

You know many people are willing to invest \$3,000 or more to attend a seminar to learn how to make money, why not invest \$680 in a low cost, risk-free and profitable home based business?

If you can enjoy personal coaching worth US\$5,403 for free why not take advantage of it? If you can leverage on a personal coach with 16 years of network marketing experience, why are you not taking advantage of it?

If there is a popular business model recommended by many successful entrepreneurs, it should be good, isn't it?

If many people from different walks of life can do this business, you should be able to do it, isn't it?

If there is a profitable business that has no discrimination on race, religion, or sex and you don't even need a formal education to succeed, you will want to know more about it, wouldn't you?

If there is a simple business that gives you the opportunity to become a "CEO" and leverage on thousands of people's time and effort, you will be interested, wouldn't you?

If there is a business where you have a multi-national company with offices in many countries and many leaders who will give you lots of support to ensure your success, you will want to do this business, wouldn't you?

What can you do if you are not able to work or you are fired or retrenched by your boss? **Most people do not plan to fail, they fail to plan and fail to take action!**

Network marketing is a business that promotes co-operation across nations by building trust and relationship at conventions. People from different countries gather together at conventions at exotic places to celebrate and give recognition to the people who are successful in this wonderful business that helps people to live a better life!

Network marketing is highly recommended by successful entrepreneurs such as Donald Trump, Robert Kiyosaki and Stephen Covey.

“Network marketing has proven itself to be a viable and rewarding source of income.” – **Donald Trump**

“Many companies in the network marketing industry are offering millions of people the same business education my rich dad taught me, the opportunity of building your own network rather than spending your life working for a network.” – **Robert Kiyosaki**

“Network marketing has come of age, it’s a way to independence for millions.” – **Stephen Covey**

Bob Proctor, a philosopher, entrepreneur and author, stake his 40 years of business reputation on it, and, he believes **network marketing is the most ethical form of business**. I’ve been in network marketing for 16 years and I wholeheartedly agree with Bob Proctor.

Zig Ziglar, a world renowned trainer and author, gave a great understanding on the spirit of network marketing:

“My whole career has been built around the concept that you can have everything in life that you want if you will just help enough people get what they want. Network marketing, more than any other structure I’ve ever seen, brings that concept into manifestation.”

First, it is very important to understand what is network marketing and why network marketing?

Second, are you happy with your earnings and lifestyle right now?

Third, are you willing to learn and make a positive change to your life?

Network marketing is a very effective business model for companies who chose to distribute their products or services through a network of independent distributors working on a proven and tested system which is supported by a brilliant and generous compensation plan that enables people to enjoy lifetime residual income. You can build a business which you can will it to your children!

Instead of going through a chain of wholesalers, agents, retailers and spending millions of dollars on advertising, a company can reach his customers effectively through a network of distributors. The most effective form of advertising is word-of-mouth, a satisfied customer share the benefits of the products or services with another.

Network marketing is a very effective way to distribute products and services because you already have a network of loved ones, relatives and friends and you have been recommending products and services since you were a child! Most people are doing network marketing, the only difference is they are not being paid for it!

Have you recommended a good book, movie or restaurant in your life? Network marketing rewards people generously for recommending products or services that have benefited them. Many network marketing companies have excellent products or services that will make a positive difference to people's lives.

Why network marketing? Do you have \$1,000,000 to invest in a McDonald's franchise or \$100,000 to invest in a small franchise? Network marketing is like a mini-franchise without the royalty fees! Your investment in network marketing is usually less than \$1,000 or less than 1% of what you have to invest in a conventional or franchise business.

Network marketing is totally risk free because your investment is for great products or services that can benefit you and your family. It is a low cost, simple, duplicatable and profitable home based business without the headaches, heartaches and stress of a conventional business.

Do you want the roof of your house to be supported by a single pillar? If you are just depending on a job to pay your bills and feed your family it is as if your roof is supported by one pillar only! Don't you think it is wise to have more than one pillar, a Plan B, Safety Net or a Second Parachute in the event you are not able to work or you are fired or retrenched?

Robert Kiyosaki said: "The richest people in the world build networks. Everyone else is trained to look for work."

There is no security in a job and it is proven time and time again when you read the newspaper's reports of thousands of people being retrenched every year!

Statistics show that most people's savings will not last more than three months once they are out of a job. The big question is where are you going to get the money to pay your bills? It is being responsible to take action now to create another stream of income in the event you are not able to work or you are fired!

In fact many people who made lots of money from network marketing are able to invest their money in stocks and shares, buy real estate and businesses and enjoy multiple streams of income!

There are basically two important factors that will determine your success in network marketing, choosing the right company and doing the right things. There are five important questions to ask yourself:

1. Do you believe you have what it takes to make a million dollars in network marketing?
2. How many years are you willing to work the business to achieve it?
3. Do you have someone who has been there and done that to show you how to do it?
4. Are you willing to commit time, money and effort to achieve your dream?
5. Are you willing to follow instruction and be consistent in your efforts?

If you have answered “YES” to the above questions and stated the number of years you are willing to work the business, you will make a million dollars in network marketing!

How many years have you chosen? Let’s assume you have chosen 4 or 8 years. For example if you have chosen 4 years, you divide \$1,000,000 by 48 months and you will find that to reach your goal you need to earn \$20,833 a month.

If you have chosen 8 years, you divide \$1,000,000 by 96 months and you will find that to reach your goal you need to earn \$10,416 a month. This is assuming your monthly income stays the same which will not be the case. You will be laughing all the way to the bank when you see your monthly income grows exponentially!

If you really work hard in network marketing you can make a million dollars in less than 5 years. When you work with a team consistently and effectively through the right strategy, you can even do it in less than 4 years!

To earn serious income, you must put in serious effort and that means a commitment of at least 20 hours a week and presenting the business at least 3 times a week.

Network marketing has been proven and tested for over 50 years and you are working with numbers and it has become a science which means the numbers and law of averages will never fail you!

The ABC of the business lies in ACTION – consistent effort, BELIEF – you must wholeheartedly believe in the business and products you are promoting, and COMMITMENT – you are willing to do whatever it takes ethically to achieve your dream!

I will be sharing with you a plan to make at least \$10,000 a month in 12 months and if you double your effort you can earn \$25,000 or more a month in 12 months! It is possible because your effort is multiplied exponentially by the people in your organization!

If you earn \$25,000 a month in your 12th month, it will take you 40 months to earn \$1,000,000 which means you can make your million dollars in less than 5 years!

This is just a projection and results will vary depending on each individual's commitment and effort. If you consider yourself a serious business builder and you are willing to commit to consistent effort, you will be able to make your million dollars in less than 5 years. Of course, there will be exceptional cases, where top achievers can do it in less than 3 years!

Let's be realistic, we do not live in a perfect world and we know that things do not happen exactly as planned and people do not necessarily do what they say they will do. Most people will be very happy to earn a good monthly residual income of \$10,000 a month in their 12th month in the business!

Working With Your Mind.

Can you see the following happening in 12 months time?
You sponsor 5 leaders into your business and work closely with them and train them to do exactly the same! See the power of multiplication, if everyone work closely with 5 leaders basically every one is increasing their effort 5 times.
 $5 \times 5 = 25$ $25 \times 5 = 125$ $125 \times 5 = 625$ $625 \times 5 = 3,125$

In a simplified way I am showing you how the business work!
1st month you sponsor 1 which gives you a total of 2 persons
Again each of you, on the second month, go and sponsor 1 and each repeating the same again month after month...

2nd month $2 \times 2 = 4$
3rd month $4 \times 2 = 8$
4th month $8 \times 2 = 16$
5th month $16 \times 2 = 32$
6th month $32 \times 2 = 64$

In 6 months you have 64 people and based on a \$100 sales per person, your team would have generated \$6,400 sales. And based on a commission of 10%, you will earn \$640, which means you can enjoy free products and extra money! $\$640 - \$100 = \$540$ positive cash flow!
Now see the power of multiplication at work...

7th month $64 \times 2 = 128$
8th month $128 \times 2 = 256$
9th month $256 \times 2 = 512$
10th month $512 \times 2 = 1024$
11th month $1024 \times 2 = 2048$
12th month $2048 \times 2 = 4096$

Which means you can build an organization of 4,096 people in 12 months and if each consuming \$100 a month, you will generate a monthly sales volume of \$409,600 and based on a 10% commission, you will earn \$40,960 a month! Again if you find that hard to believe, you can discount 90% and still earn \$4,096 per month, most people can do with an extra \$4,096 per month to live a better life, isn't it? This has happened for millions of people and it can happen for you. **Your future is in your hands. It is all up to you to earn that \$4,096 or \$40,960 per month!**

Here's how you can make over \$25,000 a month.

Invest \$680 in a program that will give you three profit centres which includes great health supplements that will give you and your family great health benefits.

How much can you earn in the first month?

Your objective is to introduce at least 6 people in the first month. For each person you introduced with three profit centres, you will receive US\$75 commission for each person and when converted by a generous rate of 1.7, you will receive S\$127.50 and when you multiply it by six persons, you will receive S\$765 ($S\127.50×6)

When you introduced 6 persons in the first month, you will **earn S\$127.50 x 6 persons = S\$765**

In your first month, S\$765 - S\$680 for your 3 profit centres = S\$85 positive cash flow! Which means you can start your business for free in your first month and enjoy a positive cash flow of S\$85!

The business is literally risk free because you get great value for your investment of S\$680. You get great health supplements worth S\$880. Plus you will receive US\$5,403 worth of home-based business business coaching for free!

Imagine yourself building an organisation such as the one you see below in 6 months.

You sponsor 6 in your first month and spend the rest of your time helping those you sponsor to sponsor 6 people too. Each distributor does the same and sponsor 6 in their first month.

1 st Month	6
2 nd Month	36
3 rd Month	216
4 th Month	1,296
5 th Month	7,776
6 th Month	46,656

Total: 55,986 distributors

On your 6th month with each distributor purchasing an average of US\$100 per month. **55,986 x US\$100 = US\$5,598,600 per month!**

Based on 10% commission, you will earn US\$559,860 per month! Converted by a generous rate of 1.7, you will earn \$951,762 per month! **What if you earn only 1% of what is projected, you will still be earning S\$9,176 per month!**

As mentioned earlier, we do not live in a perfect world and things do not happen exactly as planned and people do not necessary do the things they say they will do, so even if you took 24 month to earn S\$9,176 a month of residual income, it will still be worth your time and effort, isn't it? Even if you earn half of it, which is S\$4,588 a month, it will still be worth it, isn't it? For many people, even 5 years of effort, it is still worth it!

Think of the exponential growth of your organization, and you will understand how Synergy WorldWide top achievers can earn \$50,000 to \$100,000 a month in 5 years time! That is why Albert Einstein said: "The most powerful force in the universe is compound interest and it is the eight wonder of the world!"

Never underestimate the power of multiplication! We are alive today it is because of the ability of our cells to multiply to millions of cells to specific organs and systems in our body and we have trillions of cells in our body and all is made possible by this dynamic multiplication process and it starts from a single cell!

Based on 16 years of network marketing experience, the basic strategy to make your million dollars in the shortest time is to **choose the right company and sponsor people who are committed to building the business and teach them to do the right things!**

You are limited by your beliefs, commitment and effort and it has been proven time and time again by thousands of people who are earning a good six-figure income in network marketing, that it is possible if you really want it and commit yourself to your business consistently for the next 12 months to 24 months.

Work with your mind, how much do you want to make a month?

Having been in network marketing for 16 years and written three books on it, it is my passion and moral obligation to share this wonderful business opportunity with everyone I meet.

Let me share with you the essence of network marketing.

You must be excited about these two powerful words “network marketing”. All successful people have a network of good friends whom they can rely on to help them in life and business. Marketing is one of the key factors that create wealth, the other factor is innovation. In network marketing you learn how to build a network and you learn a lot about marketing!

"Because the purpose of business is to create a customer, the business enterprise has two--and only two--basic functions: marketing and innovation.

“Marketing and innovation produce results; all the rest are costs. Marketing is the distinguishing, unique function of the business.”
– Peter Drucker

Why invest \$100,000 to \$1,000,000 or more and wait 2 to 3 years to break even and earn \$10,000 or more a month when you can invest less than \$1,000, break even in the first month and make \$10,000 or more after 1 to 2 years, there are top network marketers who make over \$100,000 or more a month after being in the business for 3 to 5 years.

Most businesses require investment of five millions or more to enjoy earnings of \$100,000 a month and before that happens, it usually takes 3 to 5 years to break even! In network marketing the start up capital is less than \$1,000 and you can start making money in your first month. Can you see the powerful leverage network marketing offers you in terms of return on investment?

Most network marketing companies require a monthly order of \$200 a month to qualify for commission, and you get great health supplements that will improve the health of your family so actually **you are operating a global business at zero operation cost!**

The wellness industry will be a trillion dollar industry by 2012 as predicted by the award-winning economist Paul Zane Pilzer, a multi-millionaire entrepreneur and author of the best-selling book: The Wellness Revolution. He predicted there will be 10 million millionaires created in the next 10 years and most of these millionaires will come from the network marketing industry.

Why I call it a why-not-do business? Imagine operating a global business at zero monthly operating cost with the potential to earn \$100,000 a month! What about the \$200 a month that is required to earn your commission? Will that be an issue if you value health and you know your family can easily consume \$200 worth of great health supplements a month and they deserve the best!

You will be leveraging on thousands of enterprising people to help you earn \$100,000 or more a month, if that is not leveraging I don't know what leveraging is!

Compare network marketing with a conventional business.

Network Marketing vs Conventional Business		
Rental	0	\$5,000 or more a month
Employees	0	\$10,000 or more a month
Stocks	0	\$50,000 or more
Advertising	0	\$2,000 or more a month
Operating Cost	0	\$10,000 or more a month

Now you know why I call network marketing a why-not-do business? There is absolutely no risk, you simply order \$200 worth of great health supplements a month that will benefit your family greatly and you are in business!

The network marketing business is driven by leaders, you simply take your time to look for leaders and sponsor them and see your business grow exponentially! Each leader can help you make \$5,000 to \$10,000 or more a month. Sponsor 5 good leaders and in 5 years and you can earn \$25,000 to \$50,000 or more a month!

When you are part of my team you will receive free home-based business coaching program worth \$5,000 for free and a special ebook package on "How To Be Successful In Network Marketing" which is worth \$403 for free!

Mark Yarnell in his book “Your Best Year in Network Marketing” said “Approached properly and professionally, most people will take a serious look at MLM” He advised network marketers to ask these two questions:

“If I had a product that could make your life much better and you could afford it, would you buy it from me?”

And:

“If you knew for sure that it was possible to earn \$100,000 a month legally and retire in two years, would that be a business you would at least want to know about?”

I highly recommend you go to the nearest book store to buy Mark Yarnell’s book and Robert Kiyosaki’s book: The Business School For People Who Like Helping People.

I have been in network marketing for 16 years and I call this
business a “why-not-do business?” I agree with John Milton Fogg,
the author of the best-seller “The Greatest Networker, he said:
“The reason people are not in network marketing is because
they don’t understand it.”

Why pay retail prices why you can pay wholesale prices?
Why not leverage on thousands of people’s effort and time?
Why work hard when you can work smart?
Why not help millions of people to be happy, healthy and wealthy?

J Paul Getty put it across very simply:

“I rather earn 1% of 100 people’s effort than 100% of my own effort.”

I will be sharing with you the lessons, wisdom and strategies I have
learned from top network marketers who have made over a million
a year in this wonderful and life-transforming business.

Zig Ziglar said it very well and it is worth repeating it again:

“My whole career has been built around the concept that you can
have everything in life that you want if you will just help enough
people get what they want. Network marketing, more than any
other structure I’ve ever seen, brings that concept into manifestation.”

Yes, it is by giving and helping others that we are rewarded in
many ways, happiness, good health and wealth. Live your dream!

“If a man practices doing things for other people until it becomes so much a habit that he is unconscious of it, all the good forces of the universe line up behind him and whatever he undertakes to do.” – **Bruce Barton**

“Until one is committed, there is hesitancy, the chance to draw back, always ineffectiveness. Concerning all acts of initiative (and creation) there is one elementary truth, the ignorance of which kills countless ideas and splendid plans: that the moment one definitely commits oneself, then providence moves too. All sorts of things occur to help one that would never otherwise have occurred. A whole stream of events issue from the decision, raising in one’s favour all manner of unforeseen incidents and meetings and material assistance, which no man could have dreamed would come his way.

Whatever you can do, or dream you can, begin it now.
Boldness has genius, power and magic in it.”

Johann Wolfgang Von Goethe
