## **An Idea Whose Time Has Come**

Network marketing is an idea whose time has come and so it is with internet marketing. You can now build a global business from the comfort of your home with your computer with less than \$100 a month!

**Many people have to invest \$100,000 or more to start their businesses**, network marketing and internet marketing have leveled the playing field, they have taken away the common excuse of lacking the money to start a business.

Imagine you own a home-base business that cost you \$100 a month and it took you three years to build a lifetime residual income, how much is it going to cost you?

\$100 x 36 months = \$3,600 investment to achieve financial freedom? Is that too much a price to pay? It is very obvious the issue is not the money, it is the commitment, vision, belief and the burning desire to achieve your dream!

**“If a man practises doing things for other people until it become so much a habit that he is unconscious of it, all the good forces of the universe line up behind him and whatever he undertakes to do.” - Bruce Barton**

The key factors towards achieving your dream is to focus on adding value to people's lives and helping them to achieve what they want in life and basically people want good health, happiness, wealth and a better life!

Network marketing and internet marketing give you the opportunity to make a positive difference to people's lives and the world is your market.

You will have all the knowledge and guidance you need from me and I am committed to helping one million people to live a better life by 30 June 2012. One of my missions in life is to serve and help millions of people worldwide.

You have my commitment to help you, now you have to commit yourself to achieving your dream! When you have a burning desire and the willingness to do whatever it takes ethically to achieve your dream, you will achieve it!

## **The TRUTH, LIES and "SECRETS"**

**Yes, it may take you 25 minutes to read this report, but it took me 16 years to write it!** Good judgement comes from experience and experience comes from bad judgement. Many successful people have made lots of mistakes and that is how they learn, improve and get ahead in life.

Successful people see mistakes as learning experiences and they are willing to take risk and make mistakes to achieve their dreams! And I had my fair share of mistakes too. You don't have to make your own mistakes, learn from my mistakes!  
**Leverage on my 16 years of knowledge and experience.**

I've been in network marketing for 16 years and was very much attracted to the power of the Internet since 1999 and I realized that the key factors whether it is offline or online are integrity, great value, great quality, great service and great relationship.

**This report will present the TRUTH, LIES and "SECRETS".** There are actually no "secrets", it is just that you don't know what you don't know. There are enough rogue marketers out there who will take advantage of people's ignorance. I am sure you have had enough of the lies, hype and false promises!

The **TRUTH** is you have to commit money, time and effort consistently to build your online business and it may take you six months or as long as two years!

Don't fall for the **LIES** that it is so easy you can set it and forget it and so simple even your pet monkey can do it! It sounds very attractive when you are told that over 90% of the work has been done for you and you just do 10% or push the button!

The **"SECRETS"** are basically the fundamentals on building a successful business whether it is online or offline. They are: **SOLUTION**, provide a solution people are looking for.

**ETHICAL** – do the right things and give quality products and services and take good care of your clients.

**COMMITMENT** – you must be committed and work your business consistently and deliver what you promised.

**RESEARCH** – you have to do your due diligence and look for mentors or coach who are ethical, sincere and will deliver what they promise you. Do market testing and find out what the market really wants?

**TEAM** – you must leverage on a team, you cannot work alone, there must be a team of people who will support you in your business. And you must be a team player.

**SYSTEM** – you must leverage on a proven, tested and duplicatable system that allows you to expand your business globally.

Whether it is making money online or offline, the fundamental principles are the same. **Here are 10 important factors:**

1. Is it a simple, proven and tested business?
2. Will there be a team to support me?
3. Is the system proven, tested and duplicatable?
4. Can I easily expand the business to other countries?
5. Is the start up cost and monthly operation costs low?
6. Do I believe in the management, products and services?
7. Will I be generously rewarded for my efforts?
8. Is there a great demand for the products or services?
9. Will my clients use my products or services again and again for life?
10. Am I excited about promoting this business?

**Questions are the answers.** The quality of your questions will determine the quality of your life.

## **Bonus Report: The Truth About MLM And Internet Marketing!**

Why this Bonus Report first? Because people want to know the truth about what's happening out there. You don't know what you don't know! And when you know, you must take action, if you do nothing, it is as good as you don't know!

MLM or Multi-level Marketing or Network Marketing is simply a brilliant idea to market products and services through multi-levels of independent business owners. It is based on universal laws and wonderful principles but like all other businesses there are black sheep that hurt the market.

You must have heard horror stories of accountants running away with clients' money, lawyers cheating their clients, doctors making fatal mistakes, people killing themselves after losing money in the stocks market or real estate, and clients losing millions because their banks collapse! Does that mean you can no longer engage an accountant, lawyer or see a doctor or invest in stocks or real estate or keep your money in a bank?

The media tend to focus on the negative side of things and that is why when you read the newspapers or turn on the radio, there are more bad news than good news! It is true, there are MLM companies with complicated compensation plans that pay too little and too late, but there are also good MLM companies with simple and generous compensation plans.

Yes, you can make money online but it is not as easy as many internet marketers claim! There are rogue internet marketers who promised the moon to attract people to attend their seminars that cost thousands of dollars and left them in the mud! If you have attended a seminar, did you get value out of it and did you get what was promised to you?

Let's be fair, if the instructor delivered what he promised and if that is the case, you have to take responsibility for your results. But if he didn't deliver what he promised you than it is your moral obligation to warn others about this rogue internet marketer.

**"All that's necessary for evil to triumph is for enough good men to do nothing."** – Edmund Burke

Too many people have been hurt and that is part of the reason why I wrote this report to warn people, the other part is to introduce you to a good mlm company that incorporates Internet marketing.

## **Why Own A Home-Based Business?**

Why network marketing? Why MLM (old name) or network marketing (new name) is taking the world by storm and it is more powerful when it incorporates Internet marketing! As Victor Hugo said it so well:

“Nothing, not all the armies of the world can stop an idea whose time has come.”

Network marketing and Internet marketing are ideas whose time have come! Billionaires such as Warren Buffet and Richard Branson own network marketing companies. Donald Trump recommends network marketing: **“Network marketing has proven itself to be a viable and rewarding source of income.”**

**“My whole career has been build around the concept that you can have everything in life that you want if you will just help enough people get what they want. Network marketing, more than any other structure I’ve ever seen, brings that concept into manifestation.” – Zig Ziglar**

**Bob Proctor stake his 40 years of business reputation on it and he believes it is the most ethical form of business!**

**“Network marketing is a simple, profitable and duplicatable home-based business without the headaches, heartaches, overheads and stress of a conventional business.” – Bruce Seah**

Now by incorporating Internet marketing you can easily build a global business by sending an email, following up with a phone call and getting people to visit your website.

The cost of operating an online business is very low and isn’t it great when you can leverage on Internet support and websites that are given to you for free! There is no excuse not to start your home-based business when the start-up cost is very low. For as little as \$100 you can start your global business today.

I invested over \$20,000 to start a small shop that lasted 8 months! I paid \$38,000 for a country club membership to satisfy my ego! I have visited franchise exhibition where franchisors were asking for \$200,000 or more for one franchise.

Now you can start your global business for \$100 or less and leverage on my home-based business coaching worth \$5,000 and a very special ebook package worth \$403 for free!

## **This Is An Insider Report**

I've been in the mlm industry for 16 years and I've done enough research to present you the truth about mlm! I also invested time and money to learn about internet marketing since 1999. I paid \$1,950 to an award-winning web designer to design my website. Things are rapidly changing, now you can set up a simple website for little or no cost at all.

I didn't do much online until 2004 when I was inspired to make my first US\$100 online in 30 minutes by sending an email to my list, I was given a **Courage In Action Award** at the Wealth Retreat in Anaheim, USA, October 2004, organized By Robert Allen and Mark Victor Hansen.

You can leverage on my knowledge and experience and my investment of over \$10,000 to learn internet marketing. If you have any questions you can email me: [bruce Seah@gmail.com](mailto:bruce Seah@gmail.com)

I also know millions of people have been promised the moon by many rogue marketers and have been left in the mud! If you have been hurt by these marketers, do not give up on your dream, look for sincere marketers who really want to help you.

**"I am absolutely positive that every rich person in the history of the world has done one thing, and that one thing is leverage."**

**-- Marlon Sanders**

**Internet Marketing Expert**

Are you leveraging your time and effort? You will agree that there are only 24 hours in a day and there is only so much you can do by yourself, isn't it? Bill Gates, Warren Buffet and Donald Trump also have 24 hours in a day so what do they know that you don't know?

They understood the power of leverage, they build networks and organizations. They leverage their time and effort through thousands of people. What they are doing now not many people can do but network marketing and internet marketing has take away that excuse.

You can now leverage and build organization of thousands of people by working on a proven and tested system. The integration of network marketing and internet marketing is truly a marriage made in heaven!

**You can leverage on a powerful, proven and tested business model and now with the Internet, the world is your market!**

You now have the opportunity to build a global online business.

## Simple Compensation Plan

**Liberty Health Net's 4 x 5 matrix compensation plan is simple.** There are no complicated requirements or high qualifications of volume on different legs!

<b>You</b>	<b>Over-riding Commission</b>
4	5%
16	10%
64	10%
256	40%
1024	10%

**(Potential Earnings: \$11,000 to \$21,000 or more a month!)**

It is a brilliant idea to reward the smart consumers with 3 levels of the 4 x 5 matrix compensation plan. For the first time in 16 years in this industry I'm glad to see a generous way to reward smart consumers for their loyalty without having them to sponsor anyone.

<b>You</b>	<b>Over-riding Commission</b>
4	5%
16	10%
64	10%

**(Potential Earnings: \$200 to \$800 or more a month!)**

The 3 levels of commission for smart consumers and the 4<sup>th</sup> level at 40% are very effective because over 97% in this industry will be happy to earn \$300 to \$1,000 or more a month of part-time income.

**A great strategy to reward generously at 40% on the 4th level** because this will encourage people to build the business and enables business builders to earn \$3,000 to \$5,000 or more a month!

The qualification is simple unlike many companies' difficult compensation plans that make it tough for part-timers and business builders to earn a good part-time income.

## **Supporting Kids Against Hunger**

**I love the idea of having the Kids Against Hunger Donation package as one of the autoship products** which give members an opportunity to become a social entrepreneur and help to feed hungry children worldwide! I believe people have a good heart.

If you are a parent you will not want to see your children being hungry, now with Liberty Health Biz, you can build a global business and help feed hungry children worldwide too!

## Why An Online Business?

You are targeting a huge group of people who are too busy in their job or business or unwilling to squeeze that 3 hours to attend a meeting. Usually a meeting or business presentation or seminar will take about 2 hours and when you include the travelling time to get there and return home, you will most probably need another hour, making it a total of 3 hours!

Why LHN? **You don't want your customers to buy a few times, you want them to buy a lifetime!** When your customers love the health food supplements and skin care products, they will order it month after month for life! That is why many top internet marketers are doing network marketing too because they want a lifetime business and not spend too much time doing campaigns after campaigns which can be lot of hard work and takes up a lot of their time.

With an online business, the world is your market and you can reach your prospects easily from your computer in the comfort of your home and you are targeting people who love the idea of staying at home to build a global online business.

Libery Health Biz has been doing business for over 8 years in 64 countries and it has a proven, tested and duplicatable system that is supported by a very simple and generous compensation plan!

Can you afford US\$100 a month to build a global online business?
