Everything happens for a reason, the fact that you are reading this book means it is meant for you and in some way, somehow, someone has thought about you and want you to read this ebook. You have attracted this ebook into your life through your thoughts and thoughts are things, very powerful things when mixed with a definite purpose and a burning desire!

When you think - your mind is in action, everything is energy in motion, thoughts are energy in motion. Albert Einstein said: "Nothing happens until something moves."

Things are energy and energy are moving all the time which means things are happening all the time especially your thinking. even when you are asleep your mind is still working, you often go into a dream state and thoughts are expressed in your dream! There is constant change and nothing remains the same, nothing is permanent, we see it happening all the time, with the weather, seasons and people.

I woke up on 16 December 2008, Tuesday at 4.50 am with this thought in my mind: "Giving is Living" and the intention to write an ebook that will help people achieve happiness, health and wealth through a simple, duplicatable and profitable way which starts by giving a free ebook! I feel it is my moral obligation to share this wonderful business that makes life better with as many people as possible!

Zig Ziglar, the world renowned trainer and author, said it very well: **"You can have everything in life that you want if you will just help enough people get what they want."**

Giving is living. We cannot live without giving and we cannot give without living. Stop for a moment and think. You've heard it before that giving is receiving and if that is true then receiving is giving, you cannot receive without giving and you cannot give without receiving. The reason we are able to give is because we have received from other people and they taught us the joys of giving! We are here today because we were given this life!

You received unconditional love from your parents and you will never know how much your parents love you until you become a parent yourself!

“There was a man, they thought he was mad but the more he gave, the more he had!” Giving and receiving is like “yin and yang”, they exist side by side and if giving is receiving and giving is living that means giving is living and receiving! It is like breathing in and out, a very natural process that we are doing all the time!

What is Network Marketing?

I've written over 10 books and over 400 articles on network marketing. And I realized that I love network marketing so much it is because I love to lead, communicate, write and help people. Network marketing is about leadership, communication and helping people. It has always been on my mind on how am I able to communicate and educate as many people as possible about network marketing and why network marketing? Now with Internet technology I can reach as many people as possible! This ebook is a gift to my team and to the world!

Network marketing is not for everyone. If you do not enjoy helping people and talking to people, you will be a happier person doing other types of work or businesses. You must find out what you love to do because network marketing can make a positive difference to everyone's lives but it is not for everyone just like real estate, stocks and shares and forex trading is not for everyone too.

Do you know that Warren Buffet, Richard Branson and many successful entrepreneurs own network marketing companies? They can see the great value of these companies and the rapid growth and the positive difference they make to this world!

Here is irrefutable proof why network marketing works!

Network marketing has been proven and tested for over 50 years and there are thousands of network marketing companies in over 100 countries.

Network marketing is highly recommended by successful entrepreneurs and business consultants. Warren Buffet, one of the richest men in the world, owns seven network marketing companies, Richard Branson owns a network marketing company too. Donald Trump recommends network marketing.

We have billionaires who own and recommend network marketing and these billionaires are successful because they have the ability to see great value in companies.

“Nothing, not all the armies of the world can stop an idea whose time has come.” – Victor Hugo

Network marketing is an idea whose time has come where ordinary people can earn extraordinary income through a simple, proven and profitable system. You now have the opportunity to create wealth and live your dream by helping people to create wealth and live their dreams!

“Network marketing has come of age, it’s a way to independence for millions.” – Stephen Covey

You will learn success principles that will help you live a better life! There is **“PSYCHOLOGY”** in network marketing, and it is a great acronym for:

People – Network marketing is the business school for people who like helping people.” as defined by Robert Kiyosaki. Network marketing is for people who want to own a simple, duplicatable and profitable home based business without the headaches, heartaches and stress of a conventional business.

Synergy – Network marketing is about teamwork, you must be a team player and work with an effective team.

You – Network marketing is about choosing the right company and doing the right things - the two critical factors for being successful in network marketing.

Care – Network marketing is about caring and sharing – you must care enough to share and share enough to care.

Heart – Network marketing is being true to yourself and others, you must say what you mean and mean what you say because it is a business of belief, trust and relationship. Bob Proctor stake his 40 years of business reputation on network marketing and he believes it is the most ethical form of business.

Opportunity – “Network marketing is the greatest opportunity in the history of the world” said the late John Kalench who achieved his dream of making a million friends through network marketing – in fact he made millions of friends through his network marketing books, videotapes and seminars!

Leverage – Network marketing is about leveraging your time and effort. J Paul Getty said: I rather earn one percent of one hundred people’s effort than hundred percent of my own effort.”

Obstacles – Network marketing gives you lots of opportunities to become a better person by overcoming obstacles and challenges along the way. Network marketing is a business and just like in any business you will face obstacles and challenges. Success is a process, to get the “Yeses!” you will get your share of objections, excuses and justifications for not doing the business when you share your opportunity. You will come across negative people who will want to discourage you and “steal your dream” and that is why you got to be strong and hold on tight to your dream!

Great – Network marketing challenges you to be a great person because service to many is the way to greatness! You can be good and live a comfortable life but if you want to live your dream you must strive for greatness and realize your full potential and be a champion for a great cause, to make a positive difference to millions of lives and leave a great legacy! People want great people, great products and great services!

YES! – Network marketing is about effective communication. You must learn the skill on how to get people to say ‘Yes!’ It is about getting into their world and finding out what they really want in life and showing them how to get it!

You would probably agree that everyone in the world wants to be happy, healthy and wealthy, wouldn’t you? Is there a simple business that can help people to achieve that? The answer is a resounding YES! And that business is network marketing! So what is network marketing?

Network marketing is a simple, duplicatable and profitable home based business without the headaches, heartaches and stress of a conventional business. It gives ordinary people a proven, tested and profitable system to earn extraordinary residual income!

Every dollar you spend, someone makes money – why not you? Why not be part of the wealth creation process where a manufacturer is willing to share his profits with you for marketing his products through word-of-mouth instead of spending millions of dollars on advertising and paying a chain of wholesalers, agents and retailers.

Network marketing is a very effective form of direct distribution through a network of independent distributors based on the most powerful form of advertising – word-of-mouth – a satisfied customer recommends the product or service to another customer. It is a very natural process and most people are doing network marketing, the only difference is they are not being paid for it!

Have you recommended a good book, a good movie or a good restaurant? You have been recommending products or services since you were a child, why not be rewarded for doing something that you've always been doing? That is why I call network marketing a why-not-do? business!

Why not get paid for doing something that you've been doing for many years without getting paid? Many network marketing companies have excellent products that you can confidently recommend them to your loved ones, relatives and friends especially when you have benefited greatly from them!

If I can show you a simple, proven and effective way to make \$10,000 a month in 12 months by helping people to live a better life, would that be of interest to you? I've been in this business for over 15 years and have helped many people earn over \$10,000 a month and I certainly can help you too if you are willing to learn.

Would you want to make \$10,000 a month in 12 months? If your answer is YES! Read on. As I mentioned earlier it is very important to choose the right company, let me introduce 4Life to you and share with you why I chose 4Life.

One of the many headlines on the impending bird flu pandemic:

WHO: Bird flu pandemic is imminent

Governments must act swiftly to prevent outbreak, officials say

World Health Organization officials urged governments on Wednesday to act swiftly to control the spread of bird flu, warning that the world is in grave danger of a deadly pandemic triggered by the virus.

The illness has killed 45 people in Asia over the past year, in cases largely traced to contact with sick birds, and experts have warned the H5N1 virus could become far deadlier if it mutates into a form that can be easily transmitted among humans. A global pandemic could kill millions, they say.

“We at WHO believe that the world is now in the gravest possible danger of a pandemic,” Dr. Shigeru Omi, the WHO’s Western Pacific regional director, said Wednesday.

If you believe that health is very important and love the idea of turning your daily expenses into an ongoing income, you will love what I am going to share with you now!

Do you believe that health is your greatest wealth? A reporter interviewed a very wealthy man who was told by his doctors that he had only 6 months more to live and the reporter asked him how much wealth is he willing to give away for another 6 months, he answered without hesitation, “Everything.”

A billionaire shared with me at his spacious and impressive office, that he believed that health is No.1, and in business, the more zeroes you have after the one, the more exciting the figure gets, for example, \$1,000,000 is six zeroes after the one, and when you have nine zeroes after one, you will have \$1,000,000,000, one billion!

The zeroes could represent your houses, cars, and investments but if your health goes down the drain, everything ended up being zeroes! You cannot enjoy all the wealth in the world if you are sick and hospitalized. That is why wise people say that health is your greatest wealth!

Why \$10,000 a month and not \$100,000 a month? Most people are very happy to earn \$10,000 a month in 12 months because most people work for 20 to 40 years to earn such an income!

With \$10,000 a month, most people can live a good life especially if it is a passive income that comes month after month even if they stop working! Of course, if you are very ambitious and you want to earn \$50,000 to \$100,000 or more a month - it is possible if you are willing to commit the time and effort to achieve it!

Your success in this business will depend on your thinking, your mindset. The reason I start with \$10,000 a month because most people believe they can achieve it. For example, if you are earning a \$5,000 a month salary and are sick and tired of being controlled by your boss and want to break free, most likely you will want to take a look at the business! If you can earn double of what you are earning now and have more quality time for yourself and your family, you will want to do it, wouldn't you?

One of the key factors for achieving success is to work with your mind. You can't achieve something when your mind think you can't! When you've earned \$10,000 a month you will naturally think of earning \$20,000 a month and when you earn \$20,000 a month, you will start thinking of earning \$40,000 a month! That is the nature of the mind, it is always thinking of the next level of achievement and that is how man progress from cassette tape to ipod!

Before we go farther, let's work with your mind and ask you, how much do you think you need to invest to own a McDonald's franchise?

\$ _____

How much do you think you need to invest to own a smaller franchise such as Subway, 7-Eleven or Orange Julius?

\$ _____

Let's see how business-minded are you? How much are you willing to invest to earn \$10,000 a month in 12 months?

\$ _____

It is all about having the right mindset and the willingness to commit money, time and effort to make your business grow!

How many hours a week are you willing to commit to earn \$10,000 a month? _____ hours a week.

Can you see yourself building a business in the following way? You speak to six friends who really want a better life with more time for themselves and their loved ones and ask them to take a look at this exciting home based business opportunity

You can start with a very small capital of \$1,270 and it is totally risk free because in return you are getting quality health supplements based on a scientific breakthrough! The whole package is worth \$1,800 plus you can enjoy three months of offline and online home-based business coaching worth US\$5,403 for free!

You must be true to yourself and others to succeed in any business. You cannot expect something for nothing. How much you earn will directly depend on how much commitment, time and effort you invest into your business.

**“Mirror, mirror on the wall, who is the cause of it all?”
“If it is to be, it is up to me!”**

Here is the truth about owning a conventional business. Many people are willing to invest \$240,000 or more to start a franchise business and patiently wait for 2 years to break even! Which means in the next 24 months they will not make a cent yet! If the franchise business makes \$10,000 net profit a month after taking away the expenses and cost of operating the franchise, it will take 24 months to recover their \$240,000 investment and that is when they break even!

When you do your research on many conventional businesses, you will realize that it is very costly to operate one, you have costs such as rental which can easily range from \$5,000 to \$10,000 or more a month plus the salaries of employees can add up to \$10,000 or more a month! There is always the risk of losing money every month if your monthly sales could not cover your monthly operation costs.

Here's the million-dollar question to you, are you willing to own a simple, proven and profitable home-based business without the headaches, heartaches and stress of a conventional business?

When you attend our business preview and decide to be part of our team, we will share with you the secret strategy we use to build your business effectively and help you make \$10,000 a month in 12 months!

You can take your time to understand the compensation plan but it is the strategy that is going to help you make your millions in network marketing.

Part of the strategy is working with experienced network marketers, you have the support of Asia No.1 Home Based Business Coach! We have an irresistible offer: US\$5,403 worth of home based business coaching offline and online for free and a secret strategy that has helped thousands of people to earn a six-figure income!

That is why there is this saying, it is not what you know, it is who you know and what they know and who they know! It is all about leveraging and doing the business in the most effective way that is possible and working as a team!

Imagine if you just sponsor one person a month and train your team to do exactly the same. You will be very impressed by the exponential growth driven by the doubling effect and that is why **Albert Einstein said: “Compound interest is the eight wonder of the world!”**

1 st month. You sponsor one.	$1 + 1 = 2$
2 nd month. Each of you sponsor one,	$2 + 2 = 4$
3 rd month . Again each of you sponsor one	$4 + 4 = 8$
4 th month. You repeat the process again	16
5 th month. and again,	32
6 th month and so on...	64
7 th month	128
8 th month	256
9 th month	512
10 th month	1,024
11 th month	2,048
12 th month	4,096

At the end of 12 months you have a total of 4,096 based on each sponsoring just one person per month! So how much can you earn? Based on what is happening in the market and on an average sales of \$100 per month per distributor and an average 5% commission, you will earn:

$4,096 \times \$100 = 409,600 \times 5\% = \$20,480$ per month, we know we do not live in a perfect world and things do not happen exactly as planned and people may not do what they say they will do, so even if we discount it by 90% you will still earn a good residual income of \$2,048 per month!

Imagine if instead of one per month, you sponsored 3 persons a month and teach the people you sponsored to sponsor 3 persons too! You can take your time to do your calculation and see for yourself the exponential growth!

By understanding the exponential growth of the business and the powerful doubling effect which has been proven again and again in the financial world and it is no wonder (excuse the pun of the word) that compound interest is recognised by Albert Einstein as the eighth wonder of the world!

You got to be excited by now once you understand the dynamic growth of this business and why top achievers can earn a good six-figure income in 2 to 4 years!

The power of network marketing lies in its simplicity and the duplication and multiplication process. It is very low cost and that is why millions of people worldwide can participate in this home based business.

You must understand how people think – the psychology of the business. You will be told time and time again that this is a people business. You must attend training and learn what are the things that are going on in your prospect's mind?

It is never the price, it is always the value! It is **not** the HOW – It is always the WHY? The initial investment of \$1,270 is the price of owning your own home based business for two months.

The first few questions on your mind right now is “How can I make money?” “What do I get in return for \$1,270?” and “What are the risks?”

Clarity leads to power. We will show you how to make \$1,020 in your first month and \$1,530 in your second month, and that is very attractive because $\$1,020 + \$1,530 = \$2,550$ which is more than your initial investment of \$1,270, isn't it?

You will get in return for your initial investment of \$1,270, quality health supplements worth \$1,800 that will benefit your family greatly plus a few surprise bonuses! You will enjoy home-based business coaching offline and online worth US\$5,403 for free!

I repeat again, there is no risk at all! In exchange for your initial investment of \$1,270 you are getting great value in return, you get quality health supplements worth \$1,800, coaching worth US\$5,403 plus a few surprise bonuses! You will have a digital package worth US\$403 that you can easily download it.

You can leverage on 15 years of successful experience in network marketing for free and that is the irresistible offer!

Clarity leads to power and that is why you must share this ebook to get people interested and excited about this wonderful business opportunity to help people live a better life for themselves and their loved ones!

I have a vested interest in helping you to be successful because you are part of my team and as Asia No.1 Home Based Business Coach I have stake my reputation on supporting this industry just as Bob Proctor, philosopher, entrepreneur and author has staked his 40 years of business reputation on this industry and believes network marketing is the most ethical form of business!

Because people are basically good and they are attracted to people who are sincere and have their interest at heart.

A sale is only made when there is an exchange of value and a person will only pay the price when they can see they are getting great value or more than what they are paying for. Have you learned a lot by reading this ebook? I want to share with you a million-dollar formula that will help you to achieve happiness, health and wealth. You can call it **"Life's Simple Formula For A Better Life"**

If not now? When?

If not you? Who?

It is **not** the HOW – it is always the WHY?

I suggest you copy these words and paste it somewhere in your office and house where you can see it daily!

What is your burning desire? Why do you want to do this business?

What are the pain and suffering you are going through now and do you believe that this business opportunity will help you take away the pain and suffering – you may be sick and tired of doing the work that you do not enjoy over and over again! It could be emotional, health or financial challenges that you are experiencing now and this business opportunity could be your solution!

If you have all the money and time in the world what will you be doing? Can you see a better future with this business? Listen to your heart, listen to your inner voice that wants you to live your dream and take action. A journey of a thousand miles begins with the first step. Just do it!

You can imprint this powerful success formula onto your mind to help you keep on track, I am very happy to be given this opportunity to share this formula with the world! Now with the Internet technology, this formula becomes viral as thousands of people start sharing this ebook and millions of people will get the chance to read it!

Here's the powerful success formula: **“The Traffic Lights of Life”** You will see the traffic lights almost everyday on the road, let them be a constant reminder of this success formula that will help you achieve happiness, health, wealth and peace of mind.

Whenever you see the **RED** light, let it be a reminder to you: **“DO NOT HURT OTHERS”** because when you HURT others you are hurting yourself and it will return to you a hundred fold! This is the mother of all universal laws, the law of cause and effect. What you sow you shall reap. Mother nature has proven it time and time again. When you plant a papaya seed, you will get many papayas with hundreds of seeds in them! If you plant a seed of a poisonous plant, similarly you will have a poisonous plant that will return to you hundreds of seeds! Always be careful of what you think, do and say!

When you see the **AMBER** light, let that be a reminder to you to **“LEARN, LEVERAGE AND LIVE YOUR DREAM”**
All successful people are great learners, they are teachable and willing to LEARN from a master, sifu or guru. All successful people LEVERAGE their time and effort and work with a team, Warren Buffet, Bill Gates and Donald Trump, leverage on teams and thousands of people. When you learn and leverage, you will be able to achieve happiness, health and wealth and LIVE YOUR DREAM!

When you see the **GREEN** light, let that be a reminder to you to **“HELP MANY PEOPLE”** because when you HELP others you are helping yourself and you are working with the mother of all universal laws – the law of cause and effect – you will reap what you sow. Again what you give will return to you a hundred fold and service to many is the way to greatness! Buddha, Jesus, and Mother Theresa are still well remembered today by millions of people for their selfless service to people.

There you have it, “The Traffic Lights of Life”

Dr Albert Schweitzer, the great doctor and noble prize winner, was interviewed by a reporter in London. The reporter asked: “Doctor, what is wrong with men today?” Dr Schweitzer paused for a moment and answered, **“Men simply don’t think.”** When you look at the wars, poverty and suffering around the world and you ask, “ why?” Dr Schweitzer had the answer: “Men simply don’t think”. Share this page with your leaders in your country especially those leaders who think having wars is the solution!

Mark Victor Hansen, the co-author of the famous Chicken Soup For The Soul series of books, believes that network marketing will help unite people and create world peace! In network marketing people gather at conventions and get to understand each other better and realised that we are living in an interdependent world.

Network marketing is a very positive business where people think win-win and help each other to be successful and that is why many successful entrepreneurs, business consultants and marketing gurus such as Donald Trump, Robert Kiyosaki and Stephen Covey highly recommend it.

Earl Nightingale introduced “The Strangest Secret” in a recording in 1956 and it sold over a million records and he planted the seed for the personal development movement. He had studied many great teachers, successful people, sages and enlightened beings and he found that they all agree on this very important message: **“We become what we think about.”**

Whatever you want in life you can achieve it when your thinking is right and you are doing the right things. Napoleon Hill, the famous author of the book: “Think and Grow Rich” has been mentioned millions of times because of this great quotation: **“Whatever the mind of man can conceive and believe, it can achieve.”**

Buckminster Fuller is fondly remembered for this great statement: **“Integrity is the essence of everything.”** Confucius who is very well respected in China and many countries, was asked by his student one day, that if there is only one rule to live by what would that rule be? Confucius answered: **“Reciprocity – do not do unto others what you do not want others to do unto you.”**

There are no secrets to success, the successful people, sages and enlightened beings have selflessly and generously shared their knowledge, there is no lack of knowledge – there is lack of action.

There are millions of bibles around the world and there is a great formula for success in it, **“Ask and you shall receive, seek and you shall find, knock and the door will be opened.”** Ask yourself what do you really want, what are you asking for? What are you seeking? Which door are you knocking at?

Birds of a feather will flock together. We are basically the same, we share the similar aspirations and dreams, we all want to be happy, healthy, wealthy and enjoy world peace. We are the world.

Be good, do good and see good in others. I love the Olympics 2008 motto: One World, One Dream. I look forward to a world where people really value and treasure life and see the brotherhood of man and value life so much they will not tolerate fighting and wars, where the death of one soldier is too much a loss to bear because a soldier is someone’s father, son, husband, brother, cousin, and good friend.

Let the haunting song: **“Where have all the flowers gone”** be a reminder that we must learn from our mistakes: “Where have all the soldiers gone, gone to graveyards everyone, Oh when will they ever learn, when will they ever learn...”

Let Bob Dylan’s song **“Blowin’ in the wind”** reminds us to co-operate and work towards world peace.

“... Yes, and how many times must the cannon balls fly before they are forever banned?... Yes, and how many ears must one man have before he can hear people cry? Yes, and how many deaths will it take till he knows that too many people have died?... Yes, and how many years can some people exist before they’re allowed to be free? Yes, and how many times can a man turn his head pretending that he just doesn’t see?”

I will like to add that the answer is not blowing in the wind, the answer lies in every person’s heart and there is no doubt in my mind that we can achieve world peace when the leaders of the world start to think and everyone starts to think!

John Denver meaningful song: “It’s About Time” says it very well,

“It’s about time we begin to turn the world around
It’s about time we start to make it the dream we’ve always known
It’s about time we start to live the family of man
It’s about time, it’s about changes and it’s about time
It’s about peace and it’s about plenty and it’s about time
It’s about you and me together and it’s about time

Why am I writing about all these? Because it is so important to everyone of us, besides making money and living our dreams it is part of us that recognize that we are the world and it’s about time we recognize that and do our part to make world peace a reality for all people.

Network marketing has the power to influence millions of lives and spread the good news that there is a better way to earn a living and we all have an opportunity to live our dreams and make this world a better place.

John Denver wrote this song from his heart and as a human being, he is able to express what we all can relate to:

“There’s a man who is my brother, I just don’t know his name
But I know his home and family because I know we feel the same
And it hurts me when he’s hungry and when his children cry
I too am a father and that little one is mine”

Network marketing is about people, it is about life, it’s about living your dreams and making this world a better place so it is very natural for me to write about achieving world peace and how each of us can play an important role to make it a reality.

Network marketing has the power to unite the world because it is based on universal laws of giving and receiving and it is a win-win business with a heart! It is like the united nations without the politics and the red tape! It is where people gather to celebrate life and their dreams! It is the most ethical form of business that do not discriminate against race, sex or religion. It is truly an idea whose time has come!

I agree with Mark Victor Hansen wholeheartedly that network marketing will help unite people and together everyone achieve miracles! I believe that the Internet is a powerful medium for world peace and we are right now in the Information Age, so the big question is where do we go next? It is a natural progression from the Information Age to the Spiritual Age where people start to think and get wiser and spiritual and this will help us achieve world peace!

We have great business leaders such as Ted Turner, Bill Gates, and Warren Buffet who are donating a huge chunk of their wealth to help make the world a better place! These are signs of progressing to the spiritual age where leaders understand that they cannot take a cent with them when they leave this world and want to leave a positive legacy and make life better for millions of people and help make this world a better place!

I highly recommend you to read Stephen Covey’s book: The Seven Habits of Highly Effective People. You can see these seven habits practised by many successful network marketers.

1. **Be Proactive** – take responsibility for your results and take action.
2. **Begin with the end in mind** – be very clear on what you want to achieve, you have to visualize to actualize, can you see yourself earning \$10,000 a month in 12 months?
3. **Put First Things First** – live a balanced and successful lifestyle, Network marketing gives you the opportunity to have more quality time with your loved ones.
4. **Seek first to understand before being understood** – listen and get into people's world and find out what they really want in life and show them how you can help them.
5. **Think win-win** – network marketing is based on this win-win principle – you can only be successful when you help others be successful. The success of your team is part of your success.
6. **Synergy** – network marketing is all about teamwork. Together Everyone Achieves Miracles! You leverage on your team's effort and the exponential growth of your organization.
7. **Sharpen the saw** – in network marketing you will have lots of opportunities to attend personal development and business workshops and seminars to help you be a better person and learn how to work the business effectively.
