Why I wrote this e-book?

I started learning about internet since 1999 and my first big investment was in the hardware, the computer, printer and scanner. I also invested \$1,900 to have a web designer design my web pages. I invested thousands of dollars to learn what to do and what not to do and I want to share my knowledge so people do not have to suffer the costly and frustrating mistakes I made.

The award was given to me at the 4-day Wealth Retreat organized by Mark Victor Hansen and Robert Allen at the Hyatt Hotel in Anaheim, USA. Here is your answer: When I teach you how to make money online, I will make money too because you will be part of my FREE Affiliate Team in a win-win business relationship! **Let's make money online and help others to do the same!**

I highly recommend you start with a turn-key proven and tested online business, you can watch this exciting money-making movie and start to earn as you learn! You can watch this movie at: www.freedom.ws/bruce Seah In my 16 years in business I've never seen such a powerful duplicatable global online system!

1. Your start-up cost is very low: US\$10 only!
2. Your monthly operating cost is very low: US\$10 only!
3. Your Return on Investment (ROI): US\$100 to US\$1,000 or more per month! Is it worth your effort to build a business in 2 years, that cost you US\$240 (24 months x \$10) to earn a residual income from US\$100 to US\$1,000 or more per month?

Yes, you don't have to invest a cent to make money online but you can surely go further and faster if you are willing to invest hundred and twenty dollars a year in a turn-key online business and leverage on an Inc 500 company that offers you a global money-making machine worth hundreds of thousands of dollars! Your strategy is to leverage on a personal coach and a proven system and team support to achieve your dreams!

I highly recommend you invest on basic tools, courses and seminars that would cost a few hundred dollars before investing thousands of dollars, I invested thousands of dollars and regret later because I didn't master the basics and you don't want to make the same mistake!

This short and simple course on "How you can make money with little or no money online now!" is written in simple English and in "bite-size" paragraphs for easy reading and comprehension. There are a few basic skills you must learn such as surfing the internet for information, copy and pasting links and sending e-mails with your links.

This ebook may be simple but it is packed with information based on 30 years of work and business experience! There are no coincidences, everything happens for a reason. The fact that you are reading this ebook means you are ready! When a student is ready, a teacher will appear!

This short online course is very simple and basic and if you are looking for more detailed or technical stuff, you will not find it here! Although it is simple it also assumes you know the basic skills as mentioned above but if you are stucked at any point or have any questions, you can e-mail me at: bruce Seah@gmail.com

This personalized service may not last too long, I am sure very soon I will need to employ an assistant or automate the system to answer my e-mails with standard answers to frequently asked questions!

The objective of this course is to help you earn US\$100 to US\$1,000 part-time on the Internet using simple strategies and methods that you can easily follow step by step.

I will hold you by the hand and lead you step by step to the goldmine! That is what I was looking for when I attended seminars and programs but instead of that I was sold programs after programs and left totally overwhelmed and confused! I am sure you can relate to that.

I know you are just like the millions of people who really like the idea of making money online while you sleep! I was in the same position, I love the idea and as a newbie I was hungry for knowledge and guidance. Now having found my way out of the “jungle”. I want to help you to make some decent money online and let you know it is possible after all!

All I ask from you is your sincere commitment to be teachable and to follow the instruction given to you and go along with me step by step and do what need to be done consistently! Always be true to yourself and others. If you did not put in the time and effort please do not expect good results.

In any business, always ask what have I got to lose? When is my break-even point? And what is my return on investment? Can you afford to start a business for US\$10? Can you afford the monthly operating cost of US\$10? **Are you willing to stick to this business for at least 12 months to see some results?** Are you willing to put in the time, money and effort to promote this business?

It is not the how, it is always the why? For this course to work, you need to focus on why you want to make that extra money? What is your purpose? Is it to help pay your bills? Is it to help pay for your car or mortgage payments? Is it for a holiday trip? Is it for financial security? Is it to supplement your income? Is it for your children's education?

What are your reasons? Why? You must be very clear on your purpose. Take time to check on your desire, do you have a burning desire to achieve your goals by making money online? Are you willing to do whatever it takes ethically to achieve your results?

There are so many ways to make money, why online?
Clarity is power. You must know the reasons.

Why internet marketing?

There are so many businesses you can do and so many products you can sell, and you can write a few books on them! Here I will only focus on digital products such as software, courses and e-books which you can simply pay for it with your credit card and download your products without any physical delivery.

There may be a little delivery involved for some products that include manuals and CD roms and usually they are delivered by couriers such as Federal Express or DHL and this is arranged by the suppliers.

I highly recommend you start with digital products such as ebooks and softwares where it can be downloaded easily at a click of a mouse and you do not have to be involved in the physical delivery of products especially when you are new in this business.

You can join this affiliate program and try it for 14 days for \$1 only

Once you are very clear on why you want the money, the next thing is to be very clear on why online? It is simple, no cost or very low cost, easily duplicable, can be automated and the world is your market! You have the largest market that is borderless and you can reach them at a click of a mouse!

Here are the steps you need to take:

1. You must have an e-mail account.

You can register one for free at www.yahoo.com or www.hotmail.com Your Affiliate Provider or Supplier will communicate with you through this e-mail account and inform you when a sale is made!

Your commission will usually be paid by cheques sent to the home address in your account registered with the affiliate provider. You are basically helping them on the marketing of their products while they take care of the ordering and delivering. Some suppliers will pay you through www.paypal.com or www.clickbank.com You can open a free account with them.

You can specify to your supplier to accumulate your commission to a specific amount eg. \$100 or \$200 or more before sending the cheque to you. This is to reduce the costs of paying fees for cashing the cheques. There are companies that will cash foreign cheques for a nominal fee.

I conduct a 4-hour hands-on workshop on how to make money offline and online which is limited to five participants at one time, you can leverage on my 16 years of home-based business experience and \$100,000 investment in personal development and business education For a one-time fee of only \$297 and as a bonus you will get US\$403 worth of bonus products, health supplements worth \$350 and a very comprehensive business kit with CDs and VCDs, you can see the bonus products at: <http://www.bruceseah.com/sales.html>

So this is a good start, once you have achieved confidence and competency, you may want to advance further with other programs. Take baby steps!

“Education is the most powerful weapon which you can use to change the world.” - Nelson Mandela

That is why there is a wise saying: “If you think education is expensive, try ignorance!”

4. Please do not spam.

This is highly disapproved in the internet community and when there are serious complains, there is the possibility of your server shutting you down or your affiliate provider canceling your affiliate program. All e-mails should only be sent to people who know you through the internet or from events where they exchange name cards with you or have opt-in and given you permission to email them.

“Do not do unto others what you do not want others to do unto you.”
- Confucius

You can get many targeted visitors to your website when you submit articles, you can see how I do it at <http://www.goarticles.com>, you just key in “Bruce Seah” in the author column and you can read over 420 articles submitted by me. You can learn a lot from these articles too!

Add this to your “Signature” at the end of your e-mail:

“This e-mail is sent to people who have exchanged e-mails with me or name cards at events I attended or have opted in for my free ebook and newsletter. If you do not want to receive further e-mails from me, please send me an e-mail to unsubscribe at: (your e-mail address)”

5 You don’t need to own website to make money online but it will be to your advantage to own a website.

You can set up your own website later when you are more confident and competent and are willing to invest some money for your website and hosting. Of course, you can make more money with your own website because you have total control but that would be covered at a more advanced course, not here. What you need to do at this stage is to leverage on an affiliate program and send e-mails to your e-mail list with your affiliate links that will sell them a product that you believe will benefit them greatly!

Learn the simple process of making money online with affiliate program first, take baby steps first.

In this e-course, there are links where you click and it will lead you to programs that will help you learn the basics and get you going in the right direction. Your success is part of my success. Only when you are successful will you recommend my programs to your friends too!

To own a user-friendly website that includes unlimited hosting, autoresponder, video tools, video conferences, and online training plus great support. bruceseh@gmail.com

**6. You must understand how the process work.
here is a summary of the steps you need to take.**

- 1, You must have an e-mail account, if you do not have one, you can register one for free at www.yahoo.com or www.hotmail.com
2. You register for a reliable, proven and tested Affiliate Program at: <http://www.businessataclick.com>

www.freedom.ws/bruceseh

- 3, You visit your Affiliate website and follow the steps and instructions given there and learn as much as possible. There will be simple e-mail copy, links and banners for you to copy and paste.
4. Do not spam, send your e-mails with your link to people whom you know personally or through the internet.

By learning from your FREE Affiliate website and sending e-mails with your links, you can now make money without money online! So far you have not invested a cent! But you must put in the time, commitment and effort to make it work!

Do nothing and you will get nothing! Tell yourself “If it is to be, It is up to me!” **If millions of people worldwide can make money online, why not you?**

7. The next step is to build an e-mail list – this is your goldmine!

This will only be a goldmine if you practiced the K.I.S.S. factors which are: Knowledge-based, Integrity, System and Service.

What do you think most people are doing on the Internet? They are searching for relevant information which can help them live a better life! They are searching for information that will help them in specific areas or to help them solve a problem!

Knowledge-based means you must offer valuable knowledge that can benefit people in some ways in their lives. You need to provide content value – information that will help them improve their lives or offer them a solution to their problem!

The people in your e-mail list will have this BIG question on their minds: **“What’s in it for me?”**

The key factor is to build a great relationship with your email list by giving them content, value and benefits.

“Integrity is the essence of everything.” – Buckminster Fuller.

You must treat your prospect as if they are your brothers and sisters with due respect and not to hurt their feelings in any way. People are emotional beings, so you must respect their feelings and need for privacy. Do not lose their trust and confidence in you.

Constantly ask yourself “how can I add more value and give them more valuable information that will help them live a better life?”

Here’s a wise saying: “There was a man, they thought he was mad but the more he gave, the more he had!” **If you want to live a better life, learn to give more!**

Always have the interest of the people in your e-mail list close to your heart and practise reciprocity: “Do not do unto others what you do not want others to do unto you.” You can do much better by practicing this powerful idea: “Find out what they want by asking them and giving them what they want with lots of bonuses and value-added extras!”

System – do you have a marketing system? The solution lies in the system. You have to be organized and at a later stage, when you make enough money, to invest in internet marketing tools to automate your system so that it is not totally dependent on you. This is when you want to advance further from these basic steps.

Have a record of all the e-mails collected and categorized them to: Friends, Business Associates, Sub-Affiliates, Special Groups, Special Interests, Special Clubs, etc. This way you can send more personalized e-mails according to their interests. You must have an autoresponder to personalize your emails.

All top internet marketers leverage on an autoresponder to build their online business, you can create an opt-in page where people can give you their name and email address, see how I do it at this simple website: <http://www.BruceSeah.com>

For your one-month [free trial on a user-friendly autoresponder, click here.](#)

Service – the value of your service will ensure repeat business and lifetime customers! Serve others as you would want to be served and provide excellent service! Excellent service is very rare in the market and it is always appreciated! Stand out from the crowd by offering excellent service and from time to time give them great gifts that make them want to stay with you as lifetime customers!

Constantly ask yourself, how can I add more value to my customer’s experience? What other ways I can benefit them?

Be creative, do positive things that the competitors are not doing!

When you offer products and services of great value, your customers will want to stay with you for life! This is a very important area that will be covered more in depth at our advanced courses. So what is the message here? You must be willing to invest in yourself if you want to advance further!

8. How do you build an e-mail list?

Here are the basic ways to do it. Record all the e-mail addresses:

First Name, Last Name, Contact Number, E-mail Addresses, Special Interests, of your family, relatives, friends and colleagues. A very effective way to build your email list is to offer a free ebook or free enewsletter and this will get the person to opt in.

Important note: if you are serious about building an online business you must use important tools such as opt-in box and autoresponder which automate your efforts and personalized your emails. You can get [one month free trial, click here.](#)

Why it is vital that you need an opt-in box and a good and user-friendly autoresponder? You want an easy way to build your email list and with an autoresponder you will get an opt-in box for your visitors to give you your email address and agreement for you to keep in touch with them. As long as you give content and value, your list will appreciate your emails and when you have special offers for them, most likely they will want to buy it from you because you have build the relationship and trust with them.

The autoresponder allows you to automate your effort and personalize your emails to build relationship which is very important!

You can try this good and user-friendly autoresponder which I am using right now, [try it free for one month, click here.](#)

Next thing to do is to invest in your name cards, print 1,000 name cards and remember to put in your e-mail address. Simple mathematics, if you want to collect 1,000 e-mail addresses you must be prepared to give out 1,000 name cards or more!

I remembered clearly the late Corey Rudl's advice at his Internet marketing seminar at the Hyatt Hotel in Anaheim in 2004. He emphasized the importance of collecting email addresses and that **each email address could be worth as much as US\$5.00!**

How much does it cost to print a name card? Imagine exchanging a name card that cost 10 cents and getting a R.O.I of 5,000%!!! It is worth repeating – print 1,000 name cards and start exchanging them for other people's name cards because there is an email address in that name card!

This is a good challenge, start with the objective of collecting 100 e-mail addresses as soon as possible. When you have achieved that then move to the next level of collecting 1,000 e-mail addresses with the final big challenge of 10,000 e-mail addresses!

Why 10,000 e-mail addresses? For example if you have a product that gives you a profit of \$100 and you e-mail this product offer to your e-mail list of 10,000 people and only 1% responded. What would your total profit be?

It will be $100 \times \$100 = \$10,000!$

Now you know why it is very important to leverage on a user-friendly autoresponder to help you build your email list! Get your [free one-month trial now, click here.](#)

The gold mine is in a list that you have built relationship and trust!

Again, you have to be creative and start thinking of ways to collect your 10,000 e-mail addresses. You can exchange name cards at functions and events. You can invest in classified advertisements or buy leads or advertise on the Internet. You can provide a free ebook, e-zine or e-newsletter to generate opt-in subscribers that will increase the numbers in your e-mail list.

You can organize events where you can collect e-mail addresses. For more advanced techniques, do invest in the 4-hour hands-on workshop where we will explore further this important area.

You must be willing to invest in yourself, over the years I've invested over \$100,000 on personal development and business education. Education gives you the highest form of leverage. Be willing to invest in yourself an ongoing education to constantly improve yourself because the day you think you know enough is the day you stop learning, [learn and earn at the same time and help millions of people live a better life, click here.](#)

9. What products do you want to sell?

As mentioned earlier, there are many products you can sell on the internet but here we focused on digital products such as software, e-books, courses which can easily be downloaded in seconds or minutes. Preferably you want to promote a product that will give you "utility income" which means they will use the product or service again and again and that will enable you to enjoy residual income!

Some of the products may include physical products such as manuals, DVDs and CD roms which will be delivered by your suppliers. You want to keep your business simple, your primary responsibility is to market the products with integrity! Keep it simple, you do not want to spend a lot of time going to the post office to mail physical products – it can be very time consuming!

An excellent business is the wellness industry which is a trillion dollar business and everyone wants to be healthy!

Because the products are consumed monthly, you will enjoy a residual Income.

<http://www.libertyhealthbiz.com/bruce Seah>

Here's what I learned from Corey Rudl, top internet marketer.

I met Corey when he visited Singapore as one of the special speakers at the National Achievers Congress in year 2000 and again when he invited me to his wedding reception and two-day internet marketing seminar on September 2004 in Anaheim, USA.

There were over 1,000 people from all over the world at the 2-day internet marketing seminar held at the 5-star hotel, Hyatt Regency, in Anaheim, 5 minutes away from Disneyland! I was the only one from Singapore!

I also had a quick make-over session for the video recording for my video testimonial. I had a great time at the wedding reception and learn a lot from the 2-day internet marketing seminar.

Corey has definitely been there and done that. I consider him one of my mentors and I've also invested in his best-selling internet marketing course! I have invested over \$10,000 to learn internet marketing and you can leverage on my knowledge and experience for free!

To be successful, you must learn from those who are successful!

Start your global online business now, go to:

<http://www.libertyhealthbiz.com/bruce Seah>

From my experience and many of my mentors' experience, we see many people fail because of lack of belief and they do not achieve success not because of lack of ability, they have this "mental block" that tells them "it is not possible" or "I cannot do it" and "it is too difficult" and lots of other negative thoughts! They find it hard to believe that they can make money with little or no money! You must have the confidence to tell yourself:

"If other people can do it, I can do it too!"

If you have a "mental block", how do you break it?

The only effective way to do it is to hold you by the hand, guide you step by step to experience success! To help you apply what you learn here and help you make that first US\$100 online!

Are you willing to take the baby-step challenge to make US\$100 online? **To go where you've never been before you must do what you've never done before!** That makes sense to you, doesn't it? Are you willing to put in the time, effort, and commitment to make it work?

To help you achieve success I am willing to guide you step by step by offering you this FREE internet marketing coaching online, so you are never alone, if you have any questions, you can e-mail me at: bruce Seah@gmail.com

Because I will receive many e-mails, I will appreciate your patience and understanding that your e-mails will be replied within 48 hours and if you do not hear from me, do e-mail me again with a note on the subject: "Please reply"

Why so many people fail in internet marketing?

They were not only overwhelmed by what the Internet has to offer them but they were not guided and tried to do too many things at one time! Try running around to catch a few rabbits at the same time! The key thing is to keep it simple and stay focused.

Your first objective is to make US\$100 online as soon as possible, I highly recommend you Liberty Health because it has a great range of health supplements and skin care product that will make life better! You also get a user-friendly website and excellent Internet support.

You enjoy a simple and generous compensation plan and people can easily join the business online!

<http://www.libertyhealthbiz.com/bruce Seah>

You can earn as you learn and leverage on a proven and tested system with support from me and my team.

When you are surfing the internet, it is very tempting to try a few opportunities at one time, and especially if you are a beginner, you will not be able to manage them and feel overwhelmed and lost! You will also not get good result because in any business opportunity you need to put in the commitment, time and effort to achieve good results!

Know your program well, visit your website's back office and learn as much as possible. There are many products for you to promote online, **choose ONE that will give you your first US\$100 before trying others.**

Remember to stay FOCUSSED!

There are two programs offered here, choose one, and know your product, yes you can make money without money online, but you can progress much faster if you are willing to invest in yourself and concentrate on one program first.

I cannot recommend something that I am not sure of and that is why I invested my money, time and effort in Liberty Health and I am building a global business!

Liberty Health gives you the confidence and belief in the products and the best part of it is you can improve your health and the health of your loved ones and make money online! Take action and ***just do it!***

You need to learn the basics first before moving to other things. Take baby steps and work closely with me,

<http://www.libertyhealthbiz.com/bruce Seah>

Why you need to send at least 1000 e-mails for a good start. Based on 1% positive results, your chances are good if you send out 1000 e-mails and provided your e-mails went through!

There are lots of e-mail or spam blockers that you will be lucky if 30% went through. Your chances are much better if you send out 1,000 e-mails. And that is why in the earlier part of the course you are challenged to accumulate 1,000 e-mail addresses!

Another **very important business tool** you must invest in is the autoresponder. You must personalized your emails and automate your efforts if you want to be successful in internet marketing.

One-month free trial on an autoresponder at the link below:

<http://www.aweber.com/?213089>

Here is the formula for success:

Commitment + Effort + Large Numbers = Positive Results

Like in other businesses, you are working on the Law of Averages and it also depends on the value of your offer and the relationship you have with the people in your e-mail list.

You have to understand the reality of internet marketing. There is definitely a lot of exaggeration, hype, over-selling and hard-selling over the Internet. How do you stand out from the crowd? Yes you can make money online but you want to do it the right way. You must offer value and build the relationship online as well as offline.

And that is why even Corey Rudl, the internet marketing guru, organized events such as the two-day internet marketing seminar to show support and appreciation to his customers.

Especially when you are new, you need guidance and you need to stay focused. You need a personal coach who has been there and done that to guide you step by step.

You are fortunate enough to have a coach who will guide you step by step online, just follow the instruction and just do it! Remember, you don't have to make your own mistakes, you can learn from other people's mistakes.

I have invested over \$10,000 to learn from internet marketing gurus. You can now leverage on my knowledge and experience and let's work together to help millions of people worldwide to earn a decent part-time income on the Internet!

To be successful, you must be sincere, serious and committed to what you are doing. You must be willing to invest in yourself and get the necessary business tools that will help you build the business. You must be consistent in your daily effort to learn and build your global online business.

Always remember your results will depend on your time, effort, commitment and the quality and numbers of your e-mail list. The value of your e-mail list will depend on the value of the relationship you have with the people in your e-mail list.

For cold leads, people who don't know you, research shows the response rate could be as low as 0.005%!!! And that is why experienced internet marketers aim to reach millions of people through powerful systems!

People are sick and tired of the exaggeration, lies, hype, false promises and hard selling. People are looking for integrity, honesty, sincerity, value and great service that win the customer's heart and make him feel special and appreciated.

Many people have fallen for the powerful sales techniques and psychology used by unscrupulous marketers to take advantage of the impulsive nature of buyers and managed to get them to buy and buy without delivering after sales service. People were left with loads of products that they impulsively bought and felt cheated because they were left on their own not knowing what to do with the products?

Take baby steps, master the basics of internet marketing found in this book before going to more advanced lessons. Make your first US\$100 here before you think of making your US\$1,000 or US\$10,000 a month internet income!

Are you ready to make a positive difference to your life. Take action now, you are only an email away from me, your success is part of my success, email your questions to bruce Seah@gmail.com and visit my website: www.BruceSeah.com

Do you want a simple business model for you to get your website up and going and make money at the same time?
Are you willing to invest just US\$10 a month on a Business Plan that gives you the opportunity to make money while you learn at the same time?

I've invested \$2,995 to learn from Robert Allen at his 3-day Millionaire Matrix seminar and he asked: "How many make US\$10,000 a year from the internet? There were only about 10 people who put up their hands out of a room of over 300 people! That is about 3% . After that there were easily over 100 people looking for these 10 people to find out more on how they can make money online too!

My own research shows there are millions of people worldwide who want to learn how to make money online!

The best investment is in yourself, I've also invested \$3,995 in the 3-Day Billion Dollar Marketing Weekend to learn from Jay Abraham, the world renowned marketing genius!

Important Note: If you want to be successful, learn from those who are successful!

Yes, you can truly make money online while you sleep!
If you have that burning desire, that great purpose and drive, you will surely find out how to do it! The information on "How To?" is in your hands, the next step is ACTION!
