The **SECRET** to making a million dollars in network marketing lies in the word: **SECRET**.

**Seek** – seek and you shall find, ask top network marketers who have made millions of dollars in network marketing and they will share their “secrets” and some have even written books on how they achieved their success. The secret is there are no secrets!

**Ethical** – you must choose the right company and do the right things. Most people fail because they chose the wrong company with weak marketing support and poor leadership or they did the wrong things.

**Commitment** – you must commit time, money, effort and be willing to do whatever it takes ethically to achieve your million dollars.

**Responsibility** – you must take responsibility for your results.  
“Mirror, mirror on the wall, who is the cause of it all?”  
“If it is to be, it is up to me!”

**Educate** – you must educate people on what is network marketing and why network marketing?

**Teamwork** – you must build a team, build the people and the people will build the business.

A man who doesn't think is like a ship without a captain.  
The great Dr Albert Schweitzer and nobel prize winner was interviewed by a reporter when he was in London and the reporter asked, “Doctor, what is wrong with men today?” Dr Schweitzer paused for a moment and answered, “Men simply don't think.”

Why network marketing is the most misunderstood business in the world? Dr Schweitzer had the answer: “Men simply don't think.”  
If you ask me why there are so much fighting, suffering and poverty in the world? I have the same answer: “Men simply don't think.”  
If you want to get ahead in life and business, one of the critical skills is to learn how to think objectively and intelligently.  
Network marketing is a wonderful business and Mark Victor Hansen believes it will unite people and help bring about world peace!

# THINK

## **Every dollar you spend, someone makes money, why not you?**

Why not be part of the wealth creation process and partner with a manufacturer who is willing to share his profits with you when you help him to market his products through word-of-mouth advertising which has been proven to be the most effective form of advertising.

Why pay retail when you can pay wholesale? Why pay more when you can pay less? Why not turn your daily expenses into an ongoing income? Why not save time and money by ordering direct from a manufacturer? Millions of people are doing that now when they are ordering computers direct from Dell.

Why not receive a recommendation check every month for doing something which you have been doing over and over again for many years? You have been recommending good products or services for years without being paid for it.

Why depend on yourself and 24 hours in a day when you can leverage your time and effort on an organization of thousands of people? Why work hard when you can work smart?

Why not work hard for 4 years on a proven and tested system and earn \$40,000 or more a month and enjoy a great lifestyle instead of working hard for 40 years in a job? Even if you made only \$10,000 a month, that will give you a good life, isn't it?

If thousands of people can be very successful in this business, why not you?

“The definition of insanity is doing the same thing over and over again and expecting a different result.” – **Albert Einstein**

To go where you have never been before you must do what you have never done before. For things to change, first you must change!

## **Think Again.**

If you continue to do what you are doing you will continue to get what you are getting now. What options do you have to create wealth? I highly recommend you to read the book: **Think And Grow Rich.**

If there is someone who has been there and done that and he is willing to teach you, why not learn from him?

You know many people are willing to invest \$3,000 or more to attend a seminar to learn how to make money, why not invest \$878 in a low cost, risk-free and profitable home based business?

If you can enjoy personal coaching worth US\$5,403 for free why not take advantage of it? If you can leverage on a personal coach with 18 years of network marketing experience, why are you not taking advantage of it?

**If there is a popular business model that is recommended by thousands successful entrepreneurs, it should be good, isn't it?**

If many people from different walks of life can do this business, you should be able to do it, isn't it?

If there is a profitable business that has no discrimination on race, religion, or sex and you don't even need a formal education to succeed, you will want to know more about it, wouldn't you?

If there is a simple business that gives you the opportunity to become a "CEO" and leverage on thousands of people's time and effort, you will be interested, wouldn't you?

If there is a business where you have a multi-national company with offices in many countries and many leaders who will give you lots of support to ensure your success, you will want to do this business, wouldn't you?

What can you do if you are not able to work or you are fired or retrenched by your boss? **Most people do not plan to fail, they fail to plan and fail to take action!**

*Network marketing is a business that promotes co-operation* across nations by building trust and relationship at conventions. People from different countries gather together at conventions at exotic places to celebrate and give recognition to the people who are successful in this wonderful business that helps people to live a better life!

Network marketing is highly recommended by successful entrepreneurs such as Donald Trump, Robert Kiyosaki and Stephen Covey.

“Network marketing has proven itself to be a viable and rewarding source of income.” – **Donald Trump**

“Many companies in the network marketing industry are offering millions of people the same business education my rich dad taught me, the opportunity of building your own network rather than spending your life working for a network.” – **Robert Kiyosaki**

“Network marketing has come of age, it’s a way to independence for millions.” – **Stephen Covey**

**Bob Proctor**, a philosopher, entrepreneur and author, stake his 40 years of business reputation on it, and, he believes **network marketing is the most ethical form of business**. I’ve been in network marketing for 18 years and I wholeheartedly agree with Bob Proctor.

**Zig Ziglar**, a world renowned trainer and author, gave a great understanding on the spirit of network marketing:

“My whole career has been built around the concept that you can have everything in life that you want if you will just help enough people get what they want. Network marketing, more than any other structure I’ve ever seen, brings that concept into manifestation.”

First, it is very important to understand what is network marketing and why network marketing?

Second, are you happy with your earnings and lifestyle right now?

Third, are you willing to learn and make a positive change to your life?

**Network marketing is a very effective business model** for companies who chose to distribute their products or services through a network of independent distributors working on a proven and tested system which is supported by a brilliant and generous compensation plan that enables people to enjoy lifetime passive income. You can build a business which you can will it to your children!

Instead of going through a chain of wholesalers, agents, retailers and spending millions of dollars on advertising, a company can reach his customers effectively through a network of distributors. The most effective form of advertising is word-of-mouth, a satisfied customer share the benefits of the products or services with another.

Network marketing is a very effective way to distribute products and services because you already have a network of loved ones, relatives and friends and you have been recommending products and services since you were a child. Most people are doing network marketing, the only difference is they are not being paid for it!

Have you recommended a good book, movie or restaurant in your life? Network marketing rewards people generously for recommending products or services that have benefited them. Many network marketing companies have excellent products or services that will make a positive difference to people's lives.

**Why network marketing?** Do you have \$1,000,000 to invest in a McDonald's franchise or \$100,000 to invest in a small franchise? Network marketing is like a mini-franchise without the royalty fees! Your investment in network marketing is usually less than \$1,000 or less than 1% of what you have to invest in a conventional or franchise business.

**Network marketing is totally risk free** because your investment is for great products or services that can benefit you and your family. It is a low cost, simple, duplicatable and profitable home-based business without the headaches, heartaches and stress of a conventional business.

**Do you want the roof of your house to be supported by a single pillar?** If you are just depending on a job to pay your bills and feed your family it is as if your roof is supported by one pillar only! Don't you think it is wise to have more than one pillar, a Plan B, Safety Net or a Second Parachute in the event you are not able to work or you are fired or retrenched?

**“The richest people in the world build networks. Everyone else is trained to look for work.” - Robert Kiyosaki**

There is no security in a job and it is proven time and time again when you read the newspaper's reports of thousands of people being retrenched every year!

Statistics show that most people's savings will not last more than three months once they are out of a job. The big question is where are you going to get the money to pay your bills?

It is only being responsible to take action now to create another stream of income in the event you are not able to work or you are fired!

In fact many people who made lots of money from network marketing are able to invest their money in stocks and shares, buy real estate and invest in businesses to enjoy multiple streams of income!

There are basically two important factors that will determine your success in network marketing, choosing the right company and doing the right things. To make a million dollars in network marketing, you must know how to choose the right company, let me share with you how to choose the right company.

**There are basically four important factors to look for in a good network marketing company:**

It is your moral obligation to share the good news and health is your greatest wealth!**

There are thousands of testimonials on the effectiveness of the products helping people to improve their health and recover from degenerative diseases.

It is very encouraging to know there are thousands of testimonials from people who have recovered from their diseases after consuming the products. When you know that these great health supplements can help improve people's health it is very natural for you to share the good news with as many people as possible!

**There are five important questions to ask yourself:**

1. Do you believe you have what it takes to make a million dollars in network marketing?
2. How many years are you willing to work seriously on the business to achieve it?
3. Do you have someone who has been there and done that to show you how to do it?
4. Are you willing to commit time, money and effort to achieve your dream?
5. Are you willing to follow instruction and be consistent in your efforts?

If you have answered “YES” to the above questions and stated the number of years you are willing to work the business, you will make a million dollars in network marketing!

How many years have you chosen? Let’s assume you have chosen 4 or 8 years. For example if you have chosen 4 years, you divide \$1,000,000 by 48 months and you will find that to reach your goal you need to earn \$20,833 a month.

If you have chosen 8 years, you divide \$1,000,000 by 96 months and you will find that to reach your goal you need to earn \$10,416 a month. This is assuming your monthly income stays the same which will not be the case. You will be laughing all the way to the bank when you see your monthly income grows exponentially!

**If you really work hard in network marketing you can make a million dollars or more in 5 years.** When you work with a team consistently and effectively through the right strategy, you can even do it in less than 5 years!

To earn serious income, you must put in serious effort and that means a commitment of at least 20 hours a week and presenting the business at least 5 times a week.

Network marketing has been proven and tested for over 50 years and you are working with numbers and it has become a science which means the numbers and law of averages will never fail you!

**The ABC of the business** lies in ACTION – consistent effort, BELIEF – you must wholeheartedly believe in the business and The products you are promoting, and COMMITMENT – you are willing to do whatever it takes ethically to achieve your dream!

I will be sharing with you an effective plan to make at least \$10,000 a month in 12 months and if you double your effort then it is possible to earn much more because your effort is multiplied exponentially by the people in your organization! Think big, it takes the same amount of energy to think, so why think small?

If you earn \$10,000 a month in your 12<sup>th</sup> month, it will take you 100 months to earn \$1,000,000 which means you can make your million dollars in about 8 years and 3 months!

This is just a projection and results will vary depending on each individual's commitment and effort. If you consider yourself a serious business builder and you are willing to commit to consistent effort, you will be able to make your million dollars in less than 5 years. Of course, there will be exceptional cases, where top achievers can do it in less than 3 years!

Let's be realistic, we do not live in a perfect world and we know that things do not happen exactly as planned and people do not necessary do what they say they will do. Most people will be very happy to earn a good monthly passive income of \$5,000 a month in their 12<sup>th</sup> month in the business!

## Working With Your Mind.

Can you see the following happening in 12 months time? You sponsor 2 leaders into your business and work closely with them and train them to do exactly the same! See the power of multiplication, if everyone work closely with just 2 leaders basically every one is increasing their effort 2 times in 6 mths: Jan:  $2 \times 2 = 4$ , Feb:  $4 \times 2 = 8$ , Mar:  $8 \times 2 = 16$ , Apr:  $16 \times 2 = 32$ , May:  $32 \times 2 = 64$ , Jun:  $64 \times 2 = 128$

In a simplified way I am showing you how the business work!

1<sup>st</sup> month you sponsor 2 which gives you a total of 2 persons

Again each of you, on the second month, go and sponsor 2 and each repeating the same again month after month...

1<sup>st</sup> month  $2 = 2$

2<sup>nd</sup> month  $2 \times 2 = 4$

3<sup>rd</sup> month  $4 \times 2 = 8$

4<sup>th</sup> month  $8 \times 2 = 16$

5<sup>th</sup> month  $16 \times 2 = 32$

6<sup>th</sup> month  $32 \times 2 = 64$  (we have not factored in the 2 persons you consistently sponsor every month to keep it simple)

In 6 months you have a total of 126 people and based on a \$100 sales per person, your team would have generated \$12,600 sales. And based on a commission of 10%, you will earn \$1,260, which means you can enjoy free products and extra money.  $\$1,260 - \$100 = \$1,160$  positive cash flow! Now see the power of multiplication at work...

7<sup>th</sup> month  $64 \times 2 = 128$

8<sup>th</sup> month  $128 \times 2 = 256$

9<sup>th</sup> month  $256 \times 2 = 512$

10<sup>th</sup> month  $512 \times 2 = 1024$

11<sup>th</sup> month  $1024 \times 2 = 2048$

12<sup>th</sup> month  $2048 \times 2 = 4096$

Which means you can build an organization with a total of 8,190 people in 12 months and if each consuming \$100 a month, you will generate a monthly sales volume of \$819,000 and based on a 10% commission, you will earn \$81,900 a month! Again if you find that hard to believe, you can discount it 90% and still earn \$8,190 per month, most people can do with an extra \$8,190 per month to live a better life, isn't it?

This has happened for thousands of people and it can happen for you.

**Your future is in your hands. It is all up to you to earn as much as you want!**

**Here's how you can make over \$10,000 a month.**

Invest \$878 in a program that will give you the opportunity to leverage your time and effort through an organization of thousands of people in many countries.

Your objective is to introduce at least 2 persons in the first month. Help each person to sponsor their two persons and you may earn hundred dollars or more depending on how much they buy.

When you introduced 2 persons in the first month, your responsibility **is to help them duplicate what you are doing and sponsor two persons too.**

**In your first month, if you can earn over a hundred dollars that is very good because your investment is very small. For example if you have invested \$1,000, and you earn \$100 in your first month, that is 10% of your investment!** It is not an investment at all because you are basically purchasing products at wholesale prices that will help you live a better life!

The business is literally risk free because you get products of great value for your investment of S\$878. You choose what you want to buy. Plus you will receive US\$5,403 worth of home-based business coaching for free!

**Imagine yourself building an organisation such as the one you see below in 12 months.**

You sponsor 2 in your first month and spend the rest of your time helping those you sponsor to sponsor 2 people too. Each distributor does the same and sponsor 2 in their first month.

1 <sup>st</sup> Month	2	7 <sup>th</sup> Month	128
2 <sup>nd</sup> Month	4	8 <sup>th</sup> Month	256
3 <sup>rd</sup> Month	8	9 <sup>th</sup> Month	512
4 <sup>th</sup> Month	16	10 <sup>th</sup> Month	1024
5 <sup>th</sup> Month	32	11 <sup>th</sup> Month	2048
6 <sup>th</sup> Month	64	12 <sup>th</sup> Month	4096

**Total: 8,190 people in your organization**

On your 12<sup>th</sup> month with each distributor purchasing an average of US\$100 per month. **8,190 x US\$100 = US\$819,000 per month!**

Based on 10% commission, you will earn US\$81,900 per month! What if you earn only 10% of what is projected, you will still be earning a good US\$8,190 per month! Work with your mind, if you are very sceptical, how about if you only achieve 1% which is US\$819 per month of passive income. Do you have the confidence to achieve that?

As mentioned earlier, we do not live in a perfect world and things do not happen exactly as planned and people do not necessary do the things they say they will do, so even if you took 24 months to earn US\$8,190 a month of passive income, it will still be worth your time and effort, isn't it? Even if it is US\$2,000 a month of passive income, it is still worth it, isn't it? Imagine how much money you have to deposit into the bank for the bank to give you US\$2,000 a month in interest?

Think of the exponential growth of your organization, and you will understand how top network marketers can earn \$50,000 to \$100,000 a month in 5 years time! That is why Albert Einstein said: "The most powerful force in the universe is compound interest and it is the eight wonder of the world!"

**Never underestimate the power of multiplication!** We are alive today it is because of the ability of our cells to multiply to billions of cells to specific organs and systems in our body and we have trillions of cells in our body and all is made possible by this dynamic multiplication process and it starts from a single cell!

Based on 18 years of network marketing experience, the basic strategy to make your million dollars in the shortest time is to **choose the right company and sponsor people who are committed to building the business and teach them to do the right things!**

You are limited by your beliefs, commitment and effort and it has been proven time and time again by thousands of people who are earning a good six-figure income in network marketing, that it is possible if you really want it and commit yourself to your business consistently for the next 12 months to 24 months.

Work with your mind, how much do you want to make a month?

## **Be Crystal Clear On Why You Want To Do Network Marketing?**

1. Why work hard when you can work smart? You have only 24 hours in a day and you can only do so much. If you are in a job right now, you know you don't have much time to really enjoy life.

Your job will take 8 to 12 hours of your day! You still need your 6 to 8 hours of sleep. You are only left with 6 to 8 hours, your travelling time to and fro from work will take up at least 2 hours or more!

If you continue to do what you are doing, you will continue to experience what you are experiencing right now unless you are willing to take action and do something different and sacrifice certain hours of your day so that in 2 to 4 years you can break free from your job!

Time and tide wait for no man. Look back 5 years, what have you done in those 5 years that have gotten you closer to your dream? Did you make over \$10,000 a month in 5 or 10 years doing what you are doing? If there is an effective, proven and tested way to create passive income of \$10,000 a month in 2 to 4 years, why not take a closer look at it?

2. Whatever business you are in right now, do you want to have more clients? When you build a network marketing business, you are also building a network of friends and business associates who can recommend more clients to you and help your present business to grow.
3. Your network marketing business gives you the opportunity to literally turn your monthly expenses into lifetime passive income and at the same time leverage on a network of thousands of people in many countries.
4. Now with the Internet you can easily connect with people in many countries and someone, somewhere, somehow knows somebody who can make a big positive difference to your life!

## **If millions of people worldwide can do it, why can't you?**

If you can sponsor two persons a month consistently for two years to make a good passive income of \$10,000 or more a month, don't you think your friends can do it too?

If you sponsor two persons a month that means in 12 months you would have sponsored 24 people and in 2 years you would have personally sponsored 48 people into the business.

If by sponsoring 48 people and you make \$10,000 a month of passive income, that means each person is worth (\$10,000 divided by 48 people ) \$208 monthly passive income!  $\$208 \times 12 \text{ months} = \$2,496$  a year! Do you think it is worth your time and effort to sponsor one person into your business that will give you \$208 a month of passive income, \$2,496 a year or \$24,960 for 10 years? The best part about this passive income is it is not static, it can grow exponentially!

By sponsoring 48 people into your business you can make a positive difference to thousands of lives in many countries? Just imagine each of these 48 people sponsored 10 friends and they do the same,  $48 \times 10 = 480$  and  $480 \times 10 = 4,800$  people in your organization. What if each of these 4,800 sponsored 10 people,  $4,800 \times 10 = 48,000$  people! That is exactly how top network marketers are able to build huge networks!

In network marketing you are your own boss and you work at your own time and pace, some people take 2 to 4 years to make \$10,000 or more a month while others take 4 to 8 years to do it. You are in charge, it is all up to you on how fast you want to make your \$10,000 a month passive income!

It is very important to be crystal clear on the power of network marketing to help you achieve your dream and you got to be excited and be enthusiastic about the business to commit the time and effort to achieve the results you want, isn't it?

You got to have the confidence to tell yourself, if others can do it, I can do it too! It is like climbing up the stairways in a building, you do it one step at a time and how fast you want to climb it is up to you!

## **7 Important Factors For You To Be Successful.**

Having been in network marketing for 18 years and written three books on it, it is my passion and moral obligation to share this wonderful business opportunity with everyone I meet.

Let me share with you the essence of network marketing.

***You must be excited about these two powerful words:  
“network marketing”.***

All successful people have a network of good friends whom they can rely on to help them in life and business.

Marketing is one of the key factors that create wealth, the other factor is innovation. In network marketing you learn how to build a network and you learn a lot about marketing!

"Because the purpose of business is to create a customer, the business enterprise has two--and only two--basic functions: marketing and innovation.

**“Marketing and innovation produce results; all the rest are costs. Marketing is the distinguishing, unique function of the business.”**  
– Peter Drucker

Why invest \$100,000 to \$1,000,000 or more and wait 2 to 3 years to break even and earn \$10,000 or more a month when you can invest less than \$1,000, break even in the first month and make \$10,000 or more after 1 to 2 years? There are top network marketers who make \$100,000 or more a month after being in the business for 3 to 5 years!

Most businesses require investment of five millions or more to enjoy earnings of \$100,000 or more a month and it usually takes 3 to 5 years just to break even! In network marketing, your start up capital is less than \$1,000 and you can start making money in your first month. Can you see the powerful leverage network marketing offers you in terms of return on your investment?

Most network marketing companies require a monthly order of \$200 a month to qualify for commission, and you get great health supplements, skin care, hair care and products that will improve the health of your family or help you to live a better life.

So you are actually operating a global business at zero operation cost! You are basically switching stores and supporting your own company that offers better quality and greater value.

**The wellness industry is a trillion dollar industry** as predicted by the award-winning economist Paul Zane Pilzer, a multi-millionaire entrepreneur, economist and author of the best-selling book: The Wellness Revolution. He predicted there will be 10 million millionaires created in the next 10 years and most of these millionaires will come from the network marketing industry.

Why I call it a why-not-do business? Imagine operating a global business at zero monthly operating cost with the potential to earn \$100,000 or more a month in 3 to 5 years!

You will be leveraging on thousands of enterprising people to help you earn \$100,000 or more a month, if that is not leveraging, I don't know what leveraging is!

**Compare network marketing with a conventional business.**

**Network Marketing vs Conventional Business**

<b>Rental</b>	<b>0</b>	\$5,000 or more a month
<b>Employees</b>	<b>0</b>	\$10,000 or more a month
<b>Stocks</b>	<b>0</b>	\$50,000 or more
<b>Advertising</b>	<b>0</b>	\$2,000 or more a month
<b>Operating Cost</b>	<b>0</b>	\$10,000 or more a month

Now you know why I call network marketing a why-not-do business? There is absolutely no risk, you simply order \$200 worth of great products a month that will benefit your family greatly and you are in business!

The network marketing business is driven by leaders, you simply take your time to look for leaders and sponsor them and see your business grow exponentially! Each leader can help you make \$5,000 to \$10,000 or more a month. Sponsor 5 good leaders and in 5 years and you can earn \$25,000 to \$50,000 or more a month!

When you are part of my team you will receive a free home-based business coaching program worth \$5,000 for free and a special ebook package on "How To Be Successful In Network Marketing" which is worth \$403 for free!

Mark Yarnell in his book "Your Best Year in Network Marketing" said "Approached properly and professionally, most people will take a serious look at MLM" He advised network marketers to ask these two questions:

**"If I had a product that could make your life much better and you could afford it, would you buy it from me?"**

And:

**"If you knew for sure that it was possible to earn \$100,000 a month legally and retire in two years, would that be a business you would at least want to know about?"**

I highly recommend you go to the nearest book store to buy Mark Yarnell's book and Robert Kiyosaki's books: The Business School For People Who Like Helping People and The Business of the 21<sup>st</sup> Century.

I have been in network marketing for 18 years and I call this business a "why-not-do business?" I agree with John Milton Fogg, the author of the best-seller "The Greatest Networker, he said: "The reason people are not in network marketing is because they don't understand it."

Why pay retail prices why you can pay wholesale prices?  
Why not leverage on thousands of people's effort and time?  
Why work hard when you can work smart?  
Why not help millions of people to be happy, healthy and wealthy?

J Paul Getty, the well-known billionaire, put it across very simply:

“I rather earn 1% of 100 people's effort than 100% of my own effort.”

I will be sharing with you the lessons, wisdom and strategies I have learned from top network marketers who have made over a million a year in this wonderful and life-transforming business.

Zig Ziglar said it very well and it is worth repeating it again:

“My whole career has been built around the concept that you can have everything in life that you want if you will just help enough people get what they want. Network marketing, more than any other structure I've ever seen, brings that concept into manifestation.”

Yes, it is by giving and helping others that we are rewarded in many ways, happiness, good health and wealth. **Love, Learn, Leverage And Live Your Dream!**

If a man practices doing things for other people until it becomes so much a habit that he is unconscious of it, all the good forces of the universe line up behind him and whatever he undertakes to do.

– **Bruce Barton**

Until one is committed, there is hesitancy, the chance to draw back, always ineffectiveness. Concerning all acts of initiative (and creation) there is one elementary truth, the ignorance of which kills countless ideas and splendid plans: that the moment one definitely commits oneself, then providence moves too.

All sorts of things occur to help one that would never otherwise have occurred. A whole stream of events issue from the decision, raising in one's favour all manner of unforeseen incidents and meetings and material assistance, which no man could have dreamed would come his way. Whatever you can do, or dream you can, begin it now. Boldness has genius, power and magic in it.

- **Johann Wolfgang Von Goethe**

Nothing happens until something moves. – **Albert Einstein**

80% of success is showing up. – **Woody Allen**

Don't sit in the meadow and expect the cow to back up and be milked – go after the cow! – **Elbert Hubbard**

If not now, when? If not you, who? It is not "how to?".  
It is "why do?" - **Bruce Seah**
